MEMORANDUM FOR: Information Review Officer, DI

FROM:

Chief, Classification Review Division
Office of Information Services, DDA

SUBJECT: Request for Declassification Review of
"Notes" for Memoirs of Paul H. Nitze

*This CRD letter
returned with
documents and
comments 25X1
from IRO/DI
on 5 Dec 83*

1. In response to a DOD request for CIA review of additional "Notes" for the memoirs of Paul H. Nitze, we sent the attached four documents to the DO for review. The Chief/IMS  replied that they found no DO equities likely to be affected in the first two portions ("WH Meeting on Laos" and "Concept for Intervention in Vietnam," both classified TOP SECRET) but, they recommended that the material be reviewed by the DI prior to its declassification. (C)

25X1

2. Concerning the other two items on NSAM 192 ("Contingency Plan for Satellites," and "Further Actions under NSAM 192," both classified SECRET) the DO replied that these two items, "In our view relate to current US missile policies," and recommended that these items be reviewed by the appropriate Agency component. I might add that the DO reply enclosed a copy of their East Asia Division review which stated that the two items on NSAM 192 are, in their view, closely associated with current policy planning re the use of satellites in space to deter or interfere with Soviet use of long-range missiles to attack the United States. The EA Division review further stated, "We would strongly counsel against release of this information; not only is it directly related to current U.S. political-military thinking, it reveals tactics regarding the probable US reaction(s) to Soviet space maneuvers and could therefore give away sensitive planning data." In view of the DO recommendation for further Agency appropriate review, I am sending separate copies of these two items both to you for DI review and to the DS&T for review. (S)

MEMORANDUM FOR:

FROM:

SUBJECT: Review of "Notes" for Memoirs of Paul H. Nitze

Reference: Your memorandum dated 29 September 1983, same subject.

1. The appropriate DO component has reviewed the series of four "notes" pertaining to material that may be used in memoirs of Paul H. Nitze. We have found no DO equities likely to be affected in the first two portions ("WH Meeting on Laos", "Concept for Intervention in Vientnam"). We recommend, however, that the material be reviewed by the DI prior to its declassification.

2. The two items on NSAM 192 ("Contingency Plan for Satellites", "Further Actions under NSAM 192") in our view relate to current US missile policies. We therefore recommend that these items be reviewed for classification by the appropriate Agency component. Furthermore, we recommend strongly that the Department of State review all the Nitze "notes".

B. Memorandum from Jim Barron, OIS/CRD,
Same Subject, 29 September 1983

1. An East Asia Division review of the series of four "notes" pertaining to material possibly to be used in memoirs of Paul H. Nitze revealed no DO equities likely to be affected in the first two portions ("WH Meeting on Laos," "Concept for Intervention in Vietnam"). We do think this material should be checked out with the DDI prior to agreement to declassify.

2. The two items on NSAM 192 ("Contingency Plan for Satellites," "Further Actions Under NSAM 192") are, in our view, closely associated with current policy planning re the use of satellites in space to deter or interfere with Soviet use of long-range missiles to attack the United States. We would strongly counsel against release of this information; not only is it directly related to current U.S. political-military thinking, it reveals tactics regarding the probable U.S. reaction(s) to Soviet space maneuvers and could therefore give away sensitive planning data.

3. It is our view also that no release of any of the information in the Nitze "notes" should be made without consultation and clearance with the Department of State.

4. Our review consumed about one hour.
